DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art does not teach nor fairly suggest the use of a camera that executes a program stored in a recording medium that is controlled by an external image processing apparatus. Furthermore, the image processing apparatus creates a region accessible from the camera, and causes the program to be stored in the region. The prior art further does not teach the method of executing the program read out from the external recording medium while using a temporary task region in the external recording medium, wherein the external recording medium is used to record image data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
